

Covid-19 Risk Assessment Proforma

Covid-19 is a new illness that can affect your lungs and airways. It is caused by a virus called Coronavirus. Symptoms can be mild, moderate, severe or fatal. To ensure the safety of all staff and candidates all Safe Working Procedures (SWP), must always be adhered to. Failure to follow Safe Working Procedures will result in dismissal or termination from your job role.

Risk Rating Guide

High	There is a risk of serious injury or lost time to one or more people. Further action will be necessary by a competent person to reduce risk or specific training provided and operating procedure implemented
Medium	There is a foreseeable risk of injury to one or more resulting in injury, which in rare cases may be serious and critical. Defined control measures are necessary to control risk. Further site specific assessments may also be necessary in some cases.
Low	Adequate control measures have been identified to significantly reduce the chances of occurrence or injury.

Covid-19 Risk Assessment Proforma

Social Distancing

Social Distancing-Reducing the number of persons in any work area to comply with the 2-metre (6.5 foot) gap recommended by the Public Health Agency

<https://www.publichealth.hscni.net/news/covid-19-coronavirus>

<https://www.gov.uk/government/publications/covid-19-guidance-on-social-distancing-and-for-vulnerable-people>

Staff to be reminded on a daily basis of the importance of social distancing both in the workplace and outside of it.

Management checks to ensure this is adhered to.

Taking steps to review work schedules including start & finish times/shift patterns, working from home etc. to reduce number of workers on site at any one time. Also relocating workers to other tasks.

Limited Instructors and testers to be on site at one time.

Redesigning processes to ensure social distancing in place.

1 on 1 training and testing to be implemented to ensure safety of all employees and candidates. Site gates to be locked to stop any unauthorised entry to the site from general public

Conference calls to be used instead of face to face meetings.

Any training that can be completed using Zoom or other video conferencing to be used to ensure the safety of candidates .
Ensuring enough rest breaks for staff.

Regular breaks to be had to ensure washing of hands and change of PPE equipment is carried out.

Covid-19 Risk Assessment Proforma

			<p>Social distancing also to be adhered to in canteen area and smoking area.</p> <p>Tests are to be completed at the distancing required. Gloves to be worn for the paperwork to be signed off. All tests to be recorded on video for future reference.</p> <p>Standard practice to be followed of contacting employers prior to physically attending to monitor the present situation with employers and candidates in relation to signs of potential Covid. If Covid has been identified then no visit to take place.</p> <p><u>Wearing of Gloves</u></p> <p>Where Risk Assessment identifies wearing of gloves as a requirement of the job, an adequate supply of these will be provided. Staff will be instructed on how to remove gloves carefully to reduce contamination and how to dispose of them safely.</p> <p>Staff to be reminded that wearing of gloves is not a substitute for good hand washing.</p> <p><u>PPE</u></p> <p><i>Public Health guidance on the use of PPE (personal protective equipment) to protect against COVID-19 relates to health care settings. In all other settings individuals are asked to observe social distancing measures and practice good hand hygiene behaviours</i></p> <p>Where PPE is a requirement for risks associated with the work undertaken the following measures will be followed-</p> <p>Tight-fitting respirators (such as disposable FFP3 masks and reusable half masks) rely on having a good seal with the wearer's face. A face fit test will be carried out to ensure the respiratory protective equipment (RPE) can protect the wearer.</p> <p>Wearers must be clean shaven.</p>
